.

... not art: people

.

so lonely standing in line  
car culture [ minus the car ]

.

[ beware, composers: ]  
nothing so boring / shameful as predictable indeterminacy  
[ why'd you leave your fear at home? ]

.

[ O indeterminacy, ]  
how i long for your violent effects  
[ longing to become a lion-tamer-breakfast ]

.

[ The difference is: ]  
What it is vs. What can it be?  
[ beware of the grandeur of denial ]

it is interesting -  
i think the Buddhist notion of denial [ read: nihilism ] might actually suggest  
the denial of a belief in singular possibility  
or  
denial as acceptance of other possibilities  
or  
denial as anti-denial
